FROGAMES ANNOUNCES *PENGUINS ARENA – SEDNA'S WORLD* FOR WINDOWS AND MACOS X

An innovating, exciting, funny and colorful FPS: the real First Penguin Shooter!

Reims, FRANCE – September, 11th 2007 – Today Frogames, an independent video games developer, announced that *Penguins Arena – Sedna's World*, an innovating, exciting, funny and colorful FPS, has arrived.

And this game gets what it takes: *Penguins Arena* is a prize-winner of the [Intel® Game Demo Contest](#) among 145 entries from 29 countries around the world! *Penguins Arena* has won the **1st-place prize** in the **Best Game on the Go** category and **the award** for the **Best use of Torque in a game demo!**

It all begins when a penguin legend comes to life in the form of Sedna, the ancient Penguin Goddess. Global warming, pollution ... Penguin tribes are endangered. Sedna utters them that there is room for but one tribe. And **so the purging begins.**

Then it's the player's turn to **join the snowball battles** and drive the other tribes into the sea. *Penguin Arena* is a **thrilling and innovative First Penguin Shooter** with very short rounds and where the magic of reincarnation, combined with the supernatural ability to return to the game as a ghost, ensures that the character has every chance to change its tribe's fate.

"We wanted Penguins Arena to be a nervous game" said **Christophe CANON, co-founder of Frogames** "Our only purpose was to create a cool video game that is fun to play and, dare I say, **slightly addictive!**".

Indeed *Penguins Arena* is a fun, cartoonish and challenging game with an underlying message that's as real as today's headlines. What a great way to combine fun, computers and gaming to convey an urgent environmental message to people of all ages.

It is also a **real First Person Shooter** with some incredible **innovations**: no blood, just snowballs ; very short rounds ; reincarnations system and the player can interact with the game even when its tribe is eliminated. And of course it's a multiplayer game (LAN and Internet).

Penguins Arena – Sedna's World is available for **Windows and MACOS X**. It was made with the Torque Game Engine.

It can be purchased from <http://www.frogames.com> for **\$19.95 USD** and more information about this title can be found at <http://www.frogames.com>.
